## NEW Elmo Gold Oboe

The recently launched, super-efficient, super-intelligent compact **Gold Oboe Servo Drive** is now available from Heason Technology.

With continuous power capability to **5.7 kW**, the Gold Oboe is reckoned to be the smallest servo drive in its class.

The Gold Oboe is suited to applications suits where minimum weight and physical size are paramount.

## Heason Awarded Gold-Partner 2016

We are pleased to announce that we have achieved the **Kollmorgen Gold-Partner status** for the **fourth year** running.

Have represented Kollmorgen in the UK for **more than 20 years**, this status not only gives our team the recognition they deserve but it also consolidates the partner

- **Motion Controllers**
- **Servo & Stepper Drives**
- **Piezo Ceramic Motors**
- **Manual Stages**
- **Position Sensors**
- **Slip Rings**

### Product Demos

Heason are running product demos so you have a chance to try before you buy! For more information contact one of our **Sales Engineers** on **+44 (0) 1403 792 300**

### Exhibition Schedule

**Drives & Controls, NEC**  
Birmingham 12 - 14 Apr  
2016: **Stand D192**

**Engineering Design Show**, Ricoh Arena  
Coventry 19 - 20 Oct  
2016: **Stand D50**

**DSEI, ExCel London** 12 - 15 Sept 2017: **Stand S3 - 102**

Keep a look out for all forthcoming exhibitions on our dedicated [Exhibition page](#)

agreement between Heason Technology and Kollmorgen.

So, what does this award mean for our customers?

## Fit and Forget Technology

Zettlex has announced the launch of a 58mm variant to their IncOder range.

These non-contact devices offer design engineers an easy way to achieve measurement precision as tightly tolerated installation

is not required and there are no bearings to align.
