Science, Technology & Innovation Exhibition

On 14th May 2014, Heason Technology will be at The Science, Technology & Innovation Exhibition at the RAL, Rutherford - Stand A17.

This exhibition is a premier event for the promotion of Science, Technology and Innovation.

Come along and meet Jon Howard, Managing Director of Heason Technology, and Bernie Dannat, from our sister company Ixthus Instrumentation, on the day.

[Click here](#) to pre-register for the show. Please note that entry onto the Rutherford Appleton campus requires pre-registration.

Supporting a great cause!

Heason is sponsoring **John Comben**, Senior Design Engineer for a leading Specialist Engineering Company, to give up his day job designing complex motion solutions for handling systems to take part in the **16 day Windy500** tour in aid of the charity **Julia's House**, in Dorset.

On **Friday June 13th 2014**, a number of teams, including John in his £200 Lotus, will gather together and set off on the exciting Windy 500 International Driving Experience.

The **16 day tour** will take the teams through various European countries on an action packed trip before returning to England on **Sunday June 29th 2014**.

John is fundraising for **Julia's House** which provides respite care and support to children with life-limiting and life-threatening conditions, and their families, through a dedicated team of community carers, nurses and other professionals working within the families' own homes or at the Hospice.

[Click here](#) to link to **Windy500** organisers website

[Click here](#) to find out more about the work of **Julia's house**

[Click here](#) if you would like to add a donation to John's **Just Giving site**

We wish John and his team the best of luck!
